

## ACOUSTIC BARRIERS

## HUSHTEC®

# PRACTICAL AND PROVEN SOUND BARRIER SOLUTIONS THAT YOU CAN TRUST

HUSHTEC® combines the most durable material properties to provide a weatherproof and UV resistant Acoustic Barrier that will withstand the toughest conditions with minimal deterioration.

The HUSHTEC® acoustic panels have been innovatively designed to be extremely effective, yet quick and easy to install. The barriers include the Hushlock Velcro system which features 2.1 Inch joins down either side of the barrier to ensure maximum strength/protection and to gain full compliance as a clip together kit form noise barrier.

Heavy duty tensioned eyelets have been positioned on the top and bottom of the barrier to cater for a wide range of suspensions such as temporary site fencing, scaffolding, timber hoardings and many other substrates.

- Excellent Noise Absorption
- Fully transportable – move them with you to each construction site
- Quick and easy to erect – to get the job done faster
- Weather and UV resistant
- Robust and durable – to provide excellent ROI
- Versatile – can be installed indoors and outdoors
- Can also control the spread of dust & fumes
- Available to suit a full range of noise frequencies
- Can easily incorporate vision panels, access doors and other penetrations
- Fully printed personalization available to enhance your company brand and environmental image

## HUSHTEC® PERFORMANCE SERIES

The **HUSHTEC®** PERFORMANCE SERIES Acoustic Barriers were designed in the most cost effective way to mitigate noise pollution by incorporating high performance attenuation and noise absorption products into the one durable panel.

**HUSHTEC®** PERFORMANCE SERIES panels have been produced value-for-money from a range of quality materials sourced worldwide in order to provide an innovative barrier that is very user friendly and also aesthetically appealing. Lightweight 13lb panels allow easy installation, and transportation.

## HUSHTEC® PREMIUM SERIES

The **HUSHTEC®** PREMIUM SERIES panel is the highest performing noise barrier on the market! This barrier was built to mitigate a wide range of noise frequencies and we are yet to see another temporary noise barrier out-perform.

Mass-loaded vinyl-backed 35lb panels provide noise reduction of up to 43dB.

FOR UP TO  
43db NOISE  
REDUCTION**

# MOBILE NOISE ATTENUATION STATION

**THE MOBILE NOISE ATTENUATION STATION IS A PORTABLE NOISE REDUCING STATION, EASILY ASSEMBLED, CONFIGURED AND MANOEUVRED TO REDUCE LOCALIZED NOISE ON SITE.**

- Includes a light weight yet strong aluminum mobile frame. The frame can be adjusted in height & length to suit a variety of sizes on site.
- Simply attach the Acoustic Barriers using rated cable ties.
- The SafeSmart premium series Acoustic Barriers, offer a superior 33DB noise reduction.
- The SafeSmart performance Acoustic Barriers allow up to a 26db reduction.
- Acoustic Barriers are fully weather proof, fire resistant and light weight.
- The Acoustic Barriers can be custom printed with corporate logos and site specific safety signage.

**UP TO  
A MAX OF  
33db SOUND  
REDUCTION**

## KEY COMPONENTS TO CREATE A 4mL x 4mW x 2.2mH FRAME

Code	Description	QTY
210228	EasyRail Alloy Truss- Roof Post 2.0m	4
210269	Edge Protection base section including 750mm L RHS with Mini mobile std castors at each end	4
290704	Aluminum Scaffold Tube 6061 T6, Dia 48.4mm x 4.47mm x 4.0mL – Mill Finish	13
210237	Scaffold Fixed Double Coupler	26
330002	Acoustic Barriers SafeSmart Performance Panel 1.3mW x 2.0mH	11
Ancillary Items	Pack of 300mm cable ties	1

## APPLICATIONS

A light weight system easily deployed to reduce noise pollution:

- In Mining workshops
- Around welding bays
- Around Excavating of narrow trenches
- Around pump stations
- Around generators
- In cutting locations
