

ADAPTASPAN

ADAPTASPAN

There has been an increasing demand on construction and infrastructure projects worldwide to provide safer and user friendly egress ways for site personnel. SafeSmart Access are pleased to introduce an engineered aluminum modular bridging system.

This modular bridging system, has rapidly become a popular choice for projects that require an engineered, safe and cost effective access solution. AdaptaSpan bridge modules are available in 1m, 2m and 3m long sections, can be bolted/connected end-to-end to create large span walkways and bridges with spans up to 21m in length.

When looking for a temporary bridging system over excavations, creeks, trenches and to your tower crane, SafeSmart's AdaptaSpan bridging system is your answer:

SUMMARY OF BENEFITS

- AdaptaSpan system to provide safe access across trenches, canals, footpaths and work sites
- 1.2mW allows for two-way access
- Join modules together to create a clear span bridge up to 21mL
- Module sizes include; 1mL, 2mL and 3mL
- Crane bridge adaptations: Retro-fit pieces that can allow SmartSpan to connect to tower cranes.

ADAPTASPAN

Code	Description	Measurements
210136	AdaptaSpan Modular Bridge	1m module x 1.2mW, 2.5kPa
210145	AdaptaSpan Modular Bridge	2m module x 1.2mW, 2.5kPa
210137	AdaptaSpan Modular Bridge	3m module x 1.2mW, 2.5kPa
210134	AdaptaSpan Modular Bridge Anchor Bracket	-
210135	AdaptaSpan Modular Bridge: Hinging End Ramp	0.7mL x 1.2mW
210129	AdaptaSpan Crane Lifting Lug	-

CRANE BRIDGE ATTACHMENTS

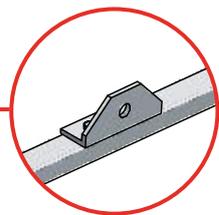

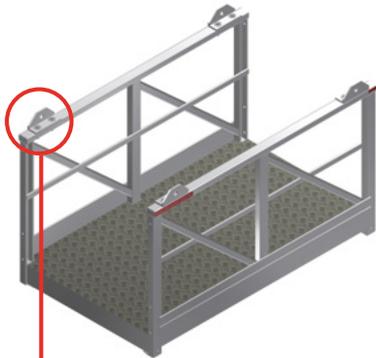

Code	Description	Measurements
210130	AdaptaSpan Tower Crane Access Adapter Frame	0.6mL x 1.2mW
210131	AdaptaSpan Modular Bolt-On Extra Height Guardrail - 1mL Pair	1mL
210132	AdaptaSpan Modular Bolt-On Extra Height Guardrail - 2mL Pair	2mL
210133	AdaptaSpan Modular Bolt-On Extra Height Guardrail - 3mL Pair	3mL
210138	AdaptaSpan Bolt On 200mm Swivel/Braked Castors Pair of LH & RH	200mm
210139	AdaptaSpan Modular Bolt On Height Adjustment Pack Pair	0-0.8mH Vertical Adjustment
210146	AdaptaSpan Bridge Tower Crane Access 2mH Entry/Exit Swing Gate with Mesh	2mH x 1.2mW
210147	AdaptaSpan Tower Crane Access Anti-Climb Wings & Panel	2.5mH x 2.23mW

NEED TO GO LONGER? CREATE A SPAN UP TO 21M

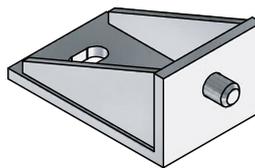

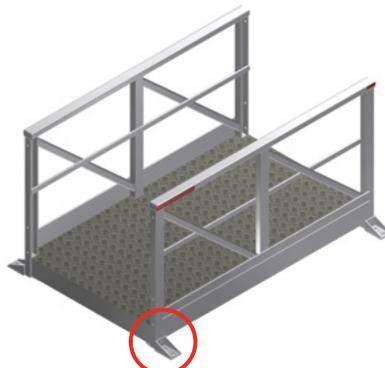

Code	Description	Measurements
210123	AdaptaSpan Accessories Brace Structure incl H/ware	-
210126	AdaptaSpan Accessories Guardrail Strongback	100x50x4mm RHS, 6.0mL with machined holes
