# 01 Ladders

## BRANACH

Branach is a world-leading height safety solutions provider. Keeping your crews safe is always the top priority, and each Branach product is developed and manufactured with this goal in mind.

Branach offers a wide range of fibreglass ladders and safety step platforms that exceed the highest industry requirements, and will keep workers safe while operating across a wide range of heights.

Electrically resistant and lightweight, all Branach ladders feature a unique fibreglass box rail. Industry proven and tested, the fibreglass box rail dramatically reduces twist and sway by up to 40% while being both lighter and more durable than C-section ladders.

### SUMMARY OF BENEFITS

- Electrically Resistant
- Lightweight
- Rigid & Sturdy
- Reduced Twist, Sway and Bounce
- All-Weather Resistant
- Single Action set-up
- Non-slip hinged Aluminum platform
- Low Maintenance
- High Visibility

# BRANACH STEP PLATFORMS

## WORKMASTER STEP PLATFORM

The WorkMaster Step Platform is stronger than any other fibreglass ladder on the market and features a unique strongbox construction.

The CorrosionMaster is build from fibreglass and stainless steel to withstand the harsh elements.

### FEATURES INCLUDE:

- Front safety rail situated at 900mm above the deck
- Lightweight and durable yet load rated to **150kgs**
- Unique construction allows for quick action set up, portability, and easy store
- Larger deck allowing greater movement
- Step plates for added stability and purchase
- Equal step distance to the ground, ensures safe access and egress
- Non-slip hinged Aluminum platform

## CORROSIONMASTER STEP PLATFORM

The WorkMaster Step Platform is stronger than any other fibreglass ladder on the market and features a unique strongbox construction.

The CorrosionMaster is build from fibreglass and stainless steel to withstand the harsh elements.

### FEATURES INCLUDE:

- Fibreglass construction, product suitable for electrical work and corrosive environments
- Large 316 stainless steel deck allowing greater movement
- No Mild steel components
- Durable yet load rated to **150kgs**
- No water absorption
- Strongbox joining system gives unparalleled performance in strength and stability

## TERRAINMASTER STEP PLATFORM

The TerrainMaster removes the need for dangerous chocking or digging out the ground to level out the ladder. As the user and terrain are never consistent, the TerrainMaster creates the safest environment to work in every time it is used.

### FEATURES INCLUDE:

- Manufactured from lightweight aircraft aluminum
- Eliminates lateral twist and sideways movement
- Easy to store, spread and level
- Base can be set to a width of 925mm to 1440mm
- Leg height can be adjusted up to 305mm
- Allows coping with a slope of up to 15 degrees
- All ladders can be retro fitted
